Other Relevant Experience

*I have been co-lecturing a personal injuries CPD workshop on negotiation skills in personal actions on behalf of The Law Society of Hong Kong for a number of years since 2003. This follows a similar format to mediation training and uses some of the same skills. See flyer attached**

I have also since qualifying as a mediator conducted structured face to face without prejudice meetings with clients present to negotiate settlement of personal injury cases applying methods and techniques I have used in mediation.

I have acted for parties in a number of mediations.
