

TOMMIE LO

Preface Coding

Tommie is the founder and CEO of Preface, an A.I.-powered education technology company that provides personalized education, disrupting the traditional form of classroom and school systems. Under his leadership, the work of Preface is expanding from Hong Kong to global operations, including Tokyo and London. As a result, Preface was the first Asian company crowned with the EdTechX Global Award in 2018.

As the **lead instructor** at Preface, Tommie has extensive experience in teaching a range of programs including **Data Science and A.I., Full Stack Web Development, Machine Learning**, etc around the globe to universities like UCLA, CUHK, PolyU, HKBU, corporates and charitable organizations like AXA, PwC, WeWork, as well as forward-thinking individuals.

His ground-breaking work in education has continuously won him awards and honours from the entrepreneurial community and international media as a scalable education system to move from standardized education to a personalized one.
